WORK EXPERIENCE

Product Designer | [Civic](#) | Remote

Jan 2025 – March 2026

Civic is a B2B SaaS platform streamlining constituent communications for government offices; second design hire.

- Led 0–1 design of the keyboard-first **AI conversational email editor and dashboard that reduced draft cycles by 20%**, cutting constituent response times for government offices by enabling fact-checking, bill and news citations, template reuse workflows and easy collaboration.
- Built the foundational design system alongside engineers using Figma and Claude: imported existing components, defined tokens and patterns, and documented component behaviour to support consistent design.
- Defined features by synthesizing user research, benchmarking email and task tools, and validating scope and feasibility with the product manager and engineer before designing the AI email editor workflows.

Digital Design Intern | [Bayer Radiology](#) | Chicago, IL

June 2025 – Aug 2025

Calantic is Bayer's B2B marketplace for AI radiology apps, serving healthcare institutions.

- **Contributed to a 4.5% increase in demo submissions** by redesigning the demo request page for easier submissions and the follow-up email flow to communicate next steps and product value clearly.
- Redesigned Radiology event and blog web pages, conducting SEO keyword research and ensuring implementation followed best practices to improve search ranking, time on page, and reduce bounce rates.
- Built a data-informed email strategy by **auditing 6+ months of campaign data** in HubSpot to identify performance gaps, researching best practices, segmenting by audience role, and running A/B tests on subject lines, layout, and content, **resulting in a 6% increase in open rates and improved click rates**.

User Experience (UX) Designer | [Fortuna Insights](#) | Boston, MA

June 2024 – Dec 2024

Fortuna Insights' ALFA is a B2B AI legal tech platform for case collaboration and finding funding.

- Conducted user interviews with lawyers to map collaboration and workflow gaps, translating findings into case management and funding discovery features.
- Designed collaboration, AI case summary, and litigation funding workflows, prioritizing features within development constraints to address the highest-impact pain points first.

Design Strategist | [Child's Cup Full](#) | Denton, TX

April 2021 – May 2023

CCF's e-commerce store, Darzah is a B2C lifestyle brand selling artisanal products.

- Identified that 30% of visitors dropped off on mobile after arriving from Instagram; conducted customer research to understand purchase drivers, redesigning the e-commerce experience to surface artisan stories and brand mission, **reducing cart abandonment and bounce rates, driving a 16% increase in sales**.
- Implemented the refreshed brand identity across email, social media, and ads, **growing engagement by 22%** and expanding brand reach through new followers, increased store traffic, and brand partnerships.

PROJECTS

Product Designer | [Student Housing](#)

Sep 2023 – Nov 2025

Designed a mobile app to help international students find safe, affordable housing — conducting user research with students, university housing departments, and leasing agents to map pain points, designing prototypes with safety scores, filters, and roommate matching features, and iterating through usability testing. Invited to pitch for a grant.
